

Overview

of the

st-beauzire site

Biopôle Clermont-Limagne has 3 locations ready to welcome businesses: Riom, Saint-Beauzire and Clermont-Ferrand. Right by the A71 motorway towards Paris, all three locations are only minutes apart and they are also close to the international airport and the main centres of research in the Clermont area.

In a 70 hectare park (173 acres), the Saint-Beauzire site is home to around forty innovative life sciences businesses.

This site provides bioindustry entrepreneurs with a variety of real estate solutions tailored to the bioindustries, from rental in a business incubator or accelerator to the purchase of land and construction on the site.

1

Main building & common services

- Reception building
- 2 modular meeting rooms
- Common areas : exhibition hall, reprography, documentary room, etc.

2

Employee services

The Saint-Beauzire Site has a shared restaurant with a capacity of 600 covers together with a shared nursery for children under 4 years of age.
